“ALL ROADS LEAD TO ROBERTS”

MERRY CHRISTMAS

cityofrobertsidaho.gov

Wow, we are getting current in Roberts, Idaho U.S.A.

The city now has a website. It is still under construction; new features will be added incrementally.

It does currently have some current events, and you can click on a link to pay your utility payments.

Cityofrobertsidaho.gov

Winter is Here!

As we enter into winter, it is a good time to make preparations for snow and storms!

Look around your property, what may become a hazard buried in snow?

Is your furnace ready?

How about your Chimney?

In the event of significant snow, all vehicles need to be

removed from streets and right of ways to facilitate safe and efficient snow removal. Failure to do so may result in citations and or towing at the owner's expense.

Now is a great time to get rid of excess vehicles or other items that may cause winter hazards.

Roberts City Library

Santa Claus will be at the Roberts City Library Saturday December 10, at 11:00 A.M. for a story time. Everyone is welcome!

Watch facebook for Holiday Hours

Hours are Mon & Wed 2-6pm, Fri 1-5pm,

Volunteer to make Roberts Great!

Small towns, communities like ours are great because of the people who make things happen.

We are small; therefore, we need our citizens to step up to help provide those things and events that help define who we are! If your time is limited, donations can be made!

Examples include, but are not limited to,

Volunteer firefighters, E.M.T.s, library helpers, Roberts food bank, The alliance for the Greater Roberts area, parks projects, community cleanup, Lions Club, Knights of Columbus and so much more!

Roberts needs you! Join something! Help make Roberts and yourself better!

Upcoming Infrastructure Projects

Your city works behind the scenes, and underground to provide many services we all take for granted.

The Mayor, Council and Clerk have been working on funding for several projects over the past few years. Several of those projects will come to fruition in the next 12 to 18 months.

2858 Street renovation: This project will dig up, and properly prepare the roadbed, and pave 2858 E from the Roberts Elementary school to the south.

Wastewater collection system upgrade: This will be a major project! Digging up, and replacing a significant amount of main line sewer pipe, updating digital controls and other various elements.

Handicapped accessible restrooms at Mustang Park: This project will build new, accessible restrooms at Mustang Park.

Years of study's, reports and behind the scenes work brings us to this point.

Thanks to everyone who has been persistent to get these projects rolling!
